

Leonard W. Vona, CPA, CFE

CEO
Fraud Auditing, Inc.
United States

I use
IDEA.

“Our fraud audit practice is built around the use of IDEA. We understand that the best audit program in the world will not detect fraud if the sample does not include a fraudulent transaction. IDEA is the tool we use to locate fraudulent transactions in core business systems. Within the last year we have identified conflicts of interest, shell corporations, overbilling, payroll schemes and theft of revenue schemes. IDEA has helped in two ways. First, the functionality allows us to create the reports which have consistently identified fraudulent activity. Second, the ease of use helps our teams provide cost-effective services to our clients.”

Leonard W. Vona, CEO of Fraud Auditing, Inc., has performed fraud audits for internationally recognized corporations. He has published two acclaimed books on the subject: *Fraud Risk Assessment: Building a Fraud Audit Program* and *The Fraud Audit: Responding to the Risk of Fraud in Core Business Systems*.

IDEA can read, display, analyze, manipulate, sample or extract from data files from almost any source. Lower your audit cost, add more quality to your work and meet professional standards.

Be a better auditor.
You have the knowledge.
We have the tools.
