

CaseWare® Connector 2009.00 Enhancements

Following are the enhancements for version 2009.00:

Connector 2009.00 Enhancements

Installation

- Released the Connector installation as an MSI installation package to allow for easier deployment by firms.
- Changed the installation requirements such that both Working Papers and Connector installations are required for linkages to connect correctly.

Interface

- Removed the Connector pulldowns from the toolbar and consolidated them into a new linkage dialog.

Identifier	Description	Value
TR	Assets - Current - Trade Receivable	11,000.00
QA	Assets - Current - Other Quick	34,800.00
IN	Assets - Current - Inventory	11,200.00
CA	Assets - Current - Other	1,100.00
FD	Assets - Capital - Amortized Cost	175,000.00
FN	Assets - Capital - Non-Amortized Cost	0.00
FA	Assets - Capital - Accumulated Amortization	(34,600.00)
IA	Assets - Capital Asset	0.00
OA	Assets - Other Asset	10,000.00
TP	Liabilities - Current - Trade Payable	(29,000.00)
CL	Liabilities - Current - Other	(39,795.00)
LL	Liabilities - Long Term	(100,000.00)
DI	Equity - Dividend	1,000.00
RE	Equity - Retained Earnings	(29,705.00)
EQ	Equity - Other	(11,000.00)
SA	Revenue - Credit Sales	(307,000.00)
SO	Revenue - Other Sales	0.00

Linkage

- Added support for User Defined Functions. As a result:
 - The maximum formula length has increased from 255 characters to match Microsoft Excel®'s cell character limit.
 - Documents which are associated with a Working Papers client file see it as the active file, even if Working Papers is not open.
- Updated Tools | Options on the Connector Toolbar in Excel to enable UDF links. This option is enabled by default.
- Allowed Connector formulas to reference cell numbers in Excel when using UDF.

Options

- Updated the Connector Tools menu with options to automatically convert all links in the current document, or multiple documents, from DDE to UDF.
